- **TTMC-W**: This garment is tested & certified to Code of Practice for Temporary Traffic Management (TTMC-W).
- **AS/ NZS 4602**: Day/Night compliant. We back our garments with certification to make sure you are covered if you need it.
- **AS/ NZS 4602**: Day only compliant. Certified to give you peace of mind.
- **UV**: Our high-visibility garments are not just cool and comfortable to work in. They also have an extremely good ability to transport moisture away from the body, a built-in UPF of 50+ and extra-stretchy reflectors. (50+ only applies to orange fabric).
- **New Zealand Forest approved designs**: Tested and certified by independent testing laboratory. We do things properly to give you the confidence needed to sell our garments.
- **Long tail for extra visibility when bending or crouching down increasing the safety of the wearer**: UltraFlect® Retro-Reflective Tape is developed for industrial laundry situations to give more life to the garments.
- **UltraFlect® Stretch Retro-Reflective Tape is developed for industrial laundry situations to give more life to the garments**: Increases movability and flexibility to help make the wearer's job easier, and is suited for the harsh industrial laundries.
- **UltraFlect® Retro-Reflective Tape is developed for industrial laundry situations to give more life to the garments**: UltraFlect® Stretch Retro-Reflective Tape increases movability and flexibility to help make the wearer's job easier, and is suited for the harsh industrial laundries.
- **Sports Mesh Venting System**: Sports mesh ventilation panels giving amazing comfort and allowing the garment to breath while worn.
- **Venting System**: Vents under the arm help the garment and wearer keep cool.
- **Quick dry**: Quick Dri Microfibre fabric draws body perspiration away quickly allowing the garment to dry quickly and keep the wearer cooler.
- **Smartphone Pocket**: Smart phone pocket to ensure you stay connected while at work.
- **Cotton Backed**: Comfortable, odourless, and ventilated with Microfibre cotton backing for superior comfort.
- **145gsm Lightweight**: Made with 145gsm lightweight cotton-backed Microfibre fabric reducing the weight and reduces fatigue.
- **140gsm Lightweight**: Made with 140gsm lightweight Microfibre fabric reducing the weight and reduces fatigue.
- **Designer Style**: Designer collar for a classy, refined look, with contrast fabric to reduce visible dirt and grime and help keep your team looking sharper for longer.
INCREDIBLE COMFORT

MAXIMUM BREATHABILITY
LIGHTWEIGHT & VENTILATED

THE MOST COMFORTABLE ODOURLESS COTTON BACK POLO

Lightweight fabric made from 145gsm Microfibre with a 100% cotton backing. Protex moisture wicking comfort through high filament fibre technology. This micro-construction causes the yarns to bulk up when exposed to moisture and quickly dry when exposed to air.

- Wicking technology
- Diffusion ability
- Drying ability
- Moisture control
- Superior odour control

Lightweight, highly breathable with underside vents going from under the arm and right down the side of the polo as well as a large panel vent on back all the way down to the hem. Sports mesh ventilation panels are extremely soft and comfortable against the skin. The wicking and quick-dry properties help to create superior odour control.
Argyle Performance Workwear is the first to use UltraFlect® Stretch tape - the only independently tested and certified retro-reflective stretch tape on the market! This stretch tape has proven to be a superior reflective tape. The tape enhances the ability of the wearer to reach and move, by stretching to allow greater flexibility and ease of movement. This ensures greater comfort for all wearers.
MAXIMUM UV PROTECTION

Our high-visibility garments are not just cool and comfortable to work in. They also have an extremely good ability to transport moisture away from the body, a built-in UPF of 50+ (applies to orange fabric) and extra-stretchy reflectors.
